DETAILED ACTION

Claim Objections

Claims 20 and 21 are objected to because of the following informalities: They are dependent on claim 23. Appropriate correction is required. It is suggested to either renumber the claims or change the dependency.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-10, 13-16, 19-26 and 31 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The term "non-biological movement" is not described in the specification in such a way as to reasonably convey to one skilled in the art that the inventor, at the time of the application was filed, had possession of the claimed invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10, 13-16, 19-26 and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-10, 13-16, 19-26 and 31, the phrase "non-biological movement" renders the claim(s) indefinite because the claims include elements not actually disclosed, thereby rendering the scope of the claims unascertainable. See MPEP § 2173.05(d).
